Dear Mr. Joosten:

On behalf of New York City I want to thank you for the part you played in the successful clean up of the World Trade Center site. The response on the part of the construction industry to the devastating attacks of September 11, 2001 was remarkable – from around the country and the world offers of help, assistance, supplies and equipment flooded in. Your company, along with hundreds of others, provided the know-how, equipment, expertise and professionalism to do the job and to do it right. Your company and hundreds like it responded when the need was there. I cannot be more appreciative. Thank you.

Sincerely,

Kenneth Holden
